Chapter 1

A lot of ppl stopped pretending to be my friends when I got tortured again and they could've easily helped. I don't have the resources to help, I want to help; they could've easily done what friends are for. They can't stand a genuinely compassionate person, so they stopped faking a friendship and blamed me for getting tortured again.

https://youtu.be/dyg8YD_hVvc?feature=shared

When I got tortured again, Bryan Durkee falsely accused me of preventing my own happiness. Kevin Curtis said, "I can't remember the last time someone reached out to me without needing something". Those liars could have easily transported me away from where I got tortured. They drive, I don't.

Sam Yosafi told me to “get a lawyer” knowing I wasn’t allowed to. Nate Oakes sneered, “rent is standard” knowing I couldn’t choose where to reside and I would have willingly paid rent for a better setting if I had a choice.

I rarely leave the dark. My eyes still burn.

The "point" of the "gifted and talented" classes in elementary school is to identify easy targets and experiment on them. Autism caused trauma and I was forcibly drugged, et cetera. There are more severe cases than mine, and I don't glorify any degree of autism. Entire online “communities" are devoted to faking autism for clout. In real life, autists are tortured in schools, hospitals, group homes , et cetera; and the torturers pretend to be "essential workers".

I survived forced psychiatry and the group home racket.

I get harassed and falsely accused of "self-hatred" for opposing ableism.

Here’s some examples of the trauma :

1

Recovery from Forced Psychiatry

Now that I've recovered from forced psychiatry, a plethora of psychiatrists who had retaliated desisted.

I was experimented on by Dr. Richard Miller at the Wheeler Clinic in Plainville, Connecticut from 5th grade until graduation in 2005. Autism (more specifically, Asperger's syndrome) made me an easy target.

I was forcibly drugged to pull out my hair and fall asleep, then sent to detention for suffering from forced psychiatry; hence exacerbated Post Traumatic Stress Disorder.

I wasn't allowed to taper off of pharmaceuticals when I graduated, I suffered withdrawal symptoms and was tortured. I was sent from Bradley Memorial Hospital in Southington, Connecticut to New Britain General Hospital in New Britain, Connecticut. Dr. Michael Edward Balkunas misdiagnosed Autism and Post Traumatic Stress Disorder as "bipolar disorder, schizoaffective disorder, and schizophrenia" or something like that without meeting me or corresponding with me. He vowed revenge because medicinal cannabis reduces the harm caused by forced psychiatry.

Community Mental Health Affiliates exacerbated Post Traumatic Stress Disorder by forcibly drugging me and forcing me into hospitals. I was denied assistance attending college.
I was also abused at Bristol Hospital Counseling Center.
Susanne Wargo forced me to take Xanax and I had a seizure from misplacing it. The staff at Bristol Hospital claimed the cause of the seizure was "undetermined" and I was abused in the psychiatric ward. Dr. Nachiappan Manoharan (sp) threatened forced injections of Zyprexa to cause diabetes, pancreatitis, and heart attacks, thus death; that's attempted murder.
Barbara Braunstein falsely accused me of using illicit narcotics whilst knowing I was forcibly prescribed drugs to cause drowsiness and threatened to drug test me. This person "worked" at the same location where I was forcibly drugged. The threat to drug test me was probably a bluff.
Margaret Pienezak of Community Mental Health Affiliates caused an anxiety attack by threatening to commit me after I was nearly murdered, falsely accused of being a "sex offender" because I'm an easy target. Dr. John A. Nazarian sent Margaret Pienezak and Michael Higgassin (sp?) to lie under oath knowing they'd get away with perjury. Attorney Katrina Camera was appointed as Conservator without grounds.
Alice Martinez of the Department of Public Health lied about why I reported CMHA. It had nothing to do with not prescribing cannabis, I reported violations such as misdiagnoses and forced drugging. The DPH retaliated by encouraging torture.
CMHA retaliated by sending me to Connecticut Valley Hospital in 2015. No risk factors were identified. I was discharged when housing was available about 4 months later.
I was sent to the Continuum of Care. I was then subjected to Leann Farley's cruelty. I nearly went blind from excessive lights and I got underweight because staff members bullied me for eating. Leann retaliated by not allowing use of the stove at night since I had to hide to eat.
July 2022
I fear for my life because it's in the hands of criminally negligent Attorney Katrina Camera, appointed in 2014. Dr. John A. Nazarian of Community Mentak Health Affiliates, a hate group, vowed revenge and meant it. He lied about why I reported him. It had nothing to do with what he doesn't prescribe. I knew I'd recover from pharmaceuticals if they were tapered. Nazarian doesn't allow recovery, hence the Conservator.
A Probate Judge broke the law and he has since retired.
Margaret Pienezak of CMHA caused anxiety by threatening to commit me for being assaulted over a false rumour. I was nearly murdered for being falsely accused of being a "sex offender" since I'm an easy target. I had to get out of CMHA to recover from forced drugging. CMHA's staff members lied about why I reported them. The Department of Public Health retaliated.
Since 2015, Continuum of Care has abused me.

Due to photophobia (i.e. light sensitivity,) from autism, my eyes hurt from being constantly subjected to bright lights while trapped in an improper setting.
Continuum of Care an agency claiming to ""rebuild lives", employs negligent staff without any certifications. They're in it for an easy paycheck. I pleaded with them to stop allowing a bully to destroy my belongings. They hid in the office. They tried and failed to commit me for being harassed by a bully they forced me to reside with. I'm still a hostage since I don't choose where to reside. I finally moved out of that place, still trapped in the Continuum of Care. My own $ would be withheld if I discharged myself.
Ppl with autism are under attack and expected to not defend ourselves.
The Department of Public Health
would probably retaliate if I reported said violations. Continuum of Care continues escalating its violations. As for why said scam still occurs, laws against such abuses are unenforced.
A staff member destroyed a resident's computer (not recently). Manager Leann Farley (in Wethersfield) probably destroyed my cell phone knowing I'd figure it was Mike Inigo, Jr. as usual.
2
Rebuttal to Sarah Carlson-Allwood
I recovered from pharmaceuticals years ago. They were finally tapered.
Sarah Carlson-Allwood misdiagnosed autism and PTSD as "schizoaffective, bipolar disorder". Trauma happened.
Medicinal cannabis saves lives. I have the license now. It's how I recover.
Falsifying medical records is illegal, the authorities just don't care. Sarah Carlson-Allwood vowed revenge because I'm unwilling to suffer from psychiatry, hence the "recommendation": being locked up and tortured at Connecticut Valley Hospital.
The safest and most effective medical necessity still prevents paranoia because it's still relaxing. Get over it.
Medicinal cannabis is the only way to concentrate, relax, and be motivated after being forcibly drugged since childhood.
3
Refuting Media's Lies About Autism
Nobody who downplays autism knows what a spectrum is. The media neglects to mention the severe cases of autism. I know it's usually much worse than what I have. Autism can mean being nonverbal and prone to seizures and wearing helmets and even diapers. Nobody downplaying autism knows about the varying degrees thereof. All degrees of autism are devastating and it didn't simply go unnoticed until recently. The prevalence of autism is rising. It's not increased awareness, it's an epidemic.
While TV shows and movies downplay autism, the news indoctrinates the populace to despise autistic people.
Having a medical condition has nothing to do with being in a community and autism existed before Reddit.
August 2022

An application was sent for better housing in Bristol. Continuum of Care's violations continue escalating. Two staff members, Tanice and Gary, disrespected me by befriending a mailman who threatened to assault me. I finally learned his full name, Milton Jackson.
After I explained my difficulty controlling the volume of my voice, the mailman threatened to control it for me. He asked Tanya, who recently began working here, if she controls ms, she explained that she doesn't.
Towards the end of August, Gary and Tanice retaliated by befriending Milton Jackson just to spite me.
Also, Jess denies the need to add more food to the pantry.
At the end of August, food was finally added to the pantry.
September 2022
New staff said to give them a chance. The air conditioner remains on in late September.
October 2022
The heat's finally on.
November 2022
I gave my 30 days notice and moved to Bristol. The conservator had no idea I knew her cell phone number. I sent a text because she never returns my calls.
December 2022
For the time being, my mother replaced Attorney Camera as Conservator.

Predators are planning a rally to advertise themselves on Sunday, April 7th, 2024.
Summary: A crooked cop rapes a so-called "client" as revenge because she tried to escape Gilead Community “Services” in Middletown, Connecticut. If I didn't report, I'd get asked why I didn't report.
The victim can't escape Andrew Lindberg, he's armed and he has blue privilege at the very least. He won't let her have any friends, the only friend on her list was his fake profile and he forced her to publicly post about what he did to her. I nearly vomited when I saw such a monstrosity on her profile months ago.
She's afraid to admit Lindberg rapes her. She knows better than to consent to police, and even if she made that mistake; I don't blame the victims. The so-called "relationship" would still be inappropriate even if she claimed to consent.
The longer story:
I got retraumatized when abusers sent the police to abduct a woman and force her back into a forced prostitution ring within the group home racket. Therefore, this IS my business.
A victim was forced back into a group home because the abusers track the victims' phones, now a crooked cop rapes her for trying to escape the group home.
The cops apparently have the highest rate of domestic violence of any "profession". They shouldn't be allowed anywhere near any woman, much less an autistic woman.
I (Kedrick the Head Trip) was subjected to retaliation twice for calling out abusers who tracked a woman's phone to force her back into a group home.

Out of respect for the victim, I won't say her name. The abuse at Gilead Community "Services" is so severe, a woman was forced back there by the predators who tracked her phone. I risked my life to protect her from the police. If not, they would've dragged her into an ambulance. I know she would never consent to any "relationship" with a police officer and that would still be inappropriate even if she claimed to consent. The police are notoriously abusive to women. The abusive staff members allow a crooked cop to exploit an autistic woman for trying to escape the group home racket and psychiatry.
(Note : I deleted posts with the victim's name in them. I'm not about to desist from condemning the abusers.)
A predator with blue privilege retaliated.
Andrew Lindberg is at least 1 of the crooked cops violating the aforementioned woman. She can't be unaware of the domestic violence by the police. Therefore, she doesn't consent to them touching her in any manner.
The MIddletown police covered their own asses.
If enough ppl see my posts, Lindberg will be brought to justice.
The CEO, Justin Salvio, interrupted me to question my intentions to shift the blame to me when I condemned him for abusing residents; including the one I risked my life to protect. He said some crap about the "clients fleeing from abusive male partners" like he forgot that the aforementioned woman fled from a group home again and sought my help escaping the group home racket. I didn't abuse her, the staff members at the group home abused her.
The crooks will probably retaliate again.
Ironically, a social worker agreed with me and she told those crooks the investigation should be reopened because a cop shouldn't be allowed to exploit the woman who fled to me and away from the group home racket.
I don't harm anyone, I'm owed a lot of apologies. I don't deserve this.
Gilead Community "Services" retraumatized me. I was feeling better until they sent the cops to abduct a woman who ran away from them and sought my help.
She didn't really ghost me over miscommunications or mistakes, abusers forcibly removed her from my life.
A victim who got abducted and forced back in can't "work with them" to get out “the right way".
I got tortured in group homes and I knew there's more torture inflicted upon women.
Lindberg lied. Falsifying a police report is a felony. I was never contacted with a reply as alleged by the cops, I had to call again months later.
I believe all victims who condemn the group home racket.
Did the victim really forget the good times we had for many years? Apparently not, she’s afraid to tell the truth.
I suffer for trying to help a woman escape a group home she described as "like a concentration camp". I did the best I could for her.
Nobody deserves torture, not even the guilty, and I'm harmless; what the cops inflict upon me is inhumane.

On the Continuum of Care scam’s official website, Mike Inigo, Jr was praised for his history of stalking and sexual harassment. So much for “privacy laws”!
Abusers didn’t remind me that insurance covers transportation to doctor’s appointments, they misled me and refused to bring me to appointments to address diseases caused by forced drugging. They encouraged Mike Inigo, Jr to bully me, then they bullied me and falsely accused me of bullying the bullies and they said I’m “not allowed” to attend doctors appointments. Sophie Dixon normalized diseases as “a part of life”.
Solving problems begins by addressing them. Good ppl don't say, "you're preventing your own happiness" to a political prisoner. I was subjected to round-the-clock torture for consecutive years and Bryan Durkee gaslit me and bullied me by blaming me for politely requesting a break from torture. He could have easily transported me away from torture. I especially don't drive after nearly going blind from torture. My prescription glasses are tinted red and the "Cyclops" joke already happened. Torturers damaged the ecosystem by wasting electricity and taxpayer's $ trying to blind me, including after a doctor implored them to accomodate; they tortured me even worse by adding a motion-activated light at my door.
"Privacy laws" don't cut it as a defense for housing me with rapists. The abusive staff members pretend to be "essential workers" while they hide in an office and get easy paychecks. They don't allow so-called "clients" any visitors since consensual intercourse could "trigger" the rapists.
I eventually was allowed out of group homes, no thanks to phony "friends".
I was terrifed I was about to get violated again and Bryan Durkee wouldn't help, he attended events I would have attended if I had a ride and he kept pretending not to understand my situation.
Friends don't let friends suffer.

Stomach acid build up cause excruciating pain, including when I had to hide to eat due to constant harassment (in Wethersfield), the abusers shouted, “ha hs, you got the munchies!” As if I would waste medical necessity by eating, I contributed food stamps to the house and couldn’t eat in peace, the abusers ran down the stairs to bully me for eating (and besides then, they usually hid the office).
